ACKNOWLEDGMENT

On behalf of all the members of group 3, I would like to thank you all for the hard works, supports to make this eProject complete successfully. Especially, Ms. Le Mong Thuy, our teacher, she helped us a lot from the day that we started to study at FPT Aptech. With this eProject, she has guided us with her enthusiasm and rigorous, because of her guiding, we would be able to finish this project. Besides, I want to thank all the team member of group 3, each of the team member has been working in order to complete this project. The last but not least, we would like to say thank you to our family for always supporting us, creating the best conditions for us to focus on the project, and putting faith in the dreams we pursue.

SYNOPSIS

Nail art is a creative way to paint, decorate, enhance, and embellish the nails. It is a type of artwork that can be done on fingernails and toenails, usually after manicures or pedicures. Manicures and pedicures are beauty treatments that trim, shape, and polish the nails. Often, these procedures remove the cuticles and soften the skin around the nails. Types of manicures can vary from polish on natural nails to dipping powder and acrylic nails.

The nail-care industry has been growing like never before ever since the invention of modern nail polish. Nail art is also a way to create its own identity through fashion, using colours and shapes as a disruption of childhood and entering to the female teen/adult world, also leaving the influence of their parents to create their own selves.

Here we are aiming to design a website "NailArt" which will provide an easy way to learn nail art with various designs and steps involved.

PROBLEM DEFINITION

The Web site is to be created based on the following requirements.

- 1) The home page must describe the keywords or highlight the nail art designs with all navigation links defined.

- 2) The site should provide the brief information about nailart as from where it originated etc.
- 3) There should be a well designed menu with necessary sub menu options.
- 4) There should be various categories (forms and styles) like easy to design for kids, complex for elders.
- 5) There should also be categories of designs as Faces, geometric design, flowers etc. Minimum 5 categories are expected here.
- 6) Proper description of the design along with the image and steps must be added in the website.
- 7) Along with the nailart designs there should be a section which will showcase the various products and accessories for art like nail polish etc
- 8) Also there should be a section giving information about nail care.
- 9) About Us
- 10)Contact us page: contact us details with location should be displayed using GeoLocation API (eg. GoogleMaps).
- 11)Feedback form
- 12)Gallery section should be added.
- 13)Color combination must be uniform throughout the project.
- 14)Navigation must be smooth.

CUSTOMER'S REQUIREMENTS SPECIFICATIONS (CRS)

Client: Mr. Aptech

Business/Project Objective:

The Objective of this program is to give a sample project to work on real life projects. These applications help you build a larger more robust application.

The objective is not to teach you JavaScript/Dreamweaver but to provide you with a real life scenario and help you create basic applications using the tools.

You can revise the chapters before you start with the project.

This project is meant for students who have completed the module of *HTML5*. These programs should be done in the Lab sessions with assistance of the faculty if required.

It is very essential that a student has a clear understanding of the subject. Students should go through the project and solve the assignments as per requirements given.

Kindly get back to eProjects Team in case of any doubts regarding the application or its objectives.

Input to the system:

- Filter a list of products for that user selected in product page.
- Leave user comments after browsing the web.

Output from the system:

- Display comments when the user clicks on our Review/Evaluation page.
- See nail art related products.
- See different nail styles like faces, geometric designs, flowers, holiday designs etc and those categories are divided into kids and adults.
- The history of nail art and nail art related changes and upcoming trends can be read.
- The collection will show everyone the wonderful works that have been made in the palm of your hand.
- Learn more about manicure and pedicure.

Process:

- Display the content that the user clicked on.
- Display information of nail art related products.

Expected delivery date:

20-12-2021

List of deliverables:

- Document Word.
- User Guide.
- Source code.

Hardware/ Software Requirements:

Hardware

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better
- 64 Megabytes of RAM or better

Software

- Notepad/HTML editor
- Dreamweaver
- IE 5.0/ Netscape 6.0

SCOPE OF THE WORK (IN BRIEF)

After a long and detailed discussion, our group has decided to create a website contain the following webpages:

- 1) **Home page:** describe the keywords or highlight the nail art designs with all navigation links defined.
- 2) **Kinds of designs:** Faces, geometric design, flowers etc. For kids and adults.
- 3) **Product:** Various art products and accessories like nail polish etc.
- 4) **About Us/Contact us:** About the members. Contact us details with location should be displayed using GeoLocation API (eg. GoogleMaps).
- 5) **History:** provide the brief information about nailart as from where it originated etc.
- 6) **Review/Evaluation:** Feedback form.
- 7) **Gallery:** Image
- 8) **Relate Knowledge:** The dangers of improper manicure.

The origin of nail art

The exact origin of nail treatments is unclear, since it appears to have originated in different parts of the world around the same time. In ancient Egypt, from 5000 to 3000 BC, women would dye their nails with henna to indicate social status and seductiveness. Women of the lower class wore pastel and neutral shades, while the upper classes wore deep, bright shades. In Babylonia, 3200 BC, men, not women, painted their nails with black and green kohl, an ancient cosmetic. To prepare for war, warriors of Babylon spent hours having their nails prepared, hair curled, and other similar beauty treatments. As in ancient Egypt, nail color indicated one's status, black for noblemen and green for the common man. Around the same time, 3000 BC, the first nail polish originated in ancient China. It was made from beeswax, egg whites, gelatin, vegetable dyes, and gum arabic. Chinese dipped their nails in this mixture for several hours or left it on to dry. Colors ranged from pink to red, depending on the mixture of the ingredients. During the Zhou Dynasty, 600 BC, royalty used this simple nail polish with gold and silver dust on their nails to show their social status.

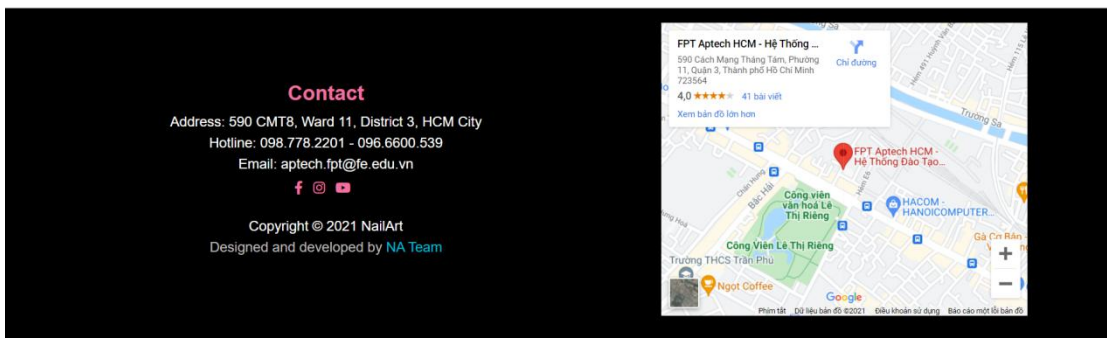

The Ming dynasty (1368-1644) was known for extremely long nails. Sometimes, these nails were protected by gold- and jewel-encrusted nail guards. Servants performed personal chores for the royals so their nails did not break or become damaged. Empress Dowager Cixi of China, who ruled from 1835 to 1908, was known for her outrageous nails. Many photos show the empress with 6-inch-long gold guards protecting her long nails. All of the aforementioned did not use nail art as it is widely known today, only stained, dyed, or dusted the fingernails and toenails. The first actual record of nail art was from the short-lived Inca Empire (1438-1533), which at that time was one of the largest empires in South America. Incas decorated their nails by painting eagles on them. In 1770, the first fancy gold and silver manicure sets were created. French King Louis XVI, who ruled from 1774 until his deposition in 1792, always had his nails taken care of using these sets.

In the early 1800s, the modern manicure developed with the invention of the orange stick, a thin wooden stick with one pointy end, usually made from orange wood. It was invented in 1830, by Dr. Sitts, a European podiatrist, who adapted a dental tool for manicure purposes. Previous to this invention, people used acid, a metal rod, and scissors to shape and trim the nails. In 1892, Dr. Sitts' niece invented a nail-care line for women of any social class, which eventually reached United States salons. Prior to then, women had short, almond-shaped nails and often used oils for additional shine or tint. Not long after, in 1907, the first liquid nail polish was invented, although it was colorless. Soon thereafter, it was available in variety of

- Nail stickers: A form of artificial nails, there is a large range of nail stickers, strips and wraps on the market used to mimic nail polish without exposing oneself to the harmful chemicals found in polish.

1. Tools

Although it is never desirable, many times a manicure at low-quality nail salons can cause you to get an infection. Due to the sharing of nail clipping and trimming tools, this is believed to be an intermediary of hepatitis B, C or HIV virus infection or simply a common fungus.

To avoid getting infected, experts recommend that you buy your own set of nail trimming tools. Don't be afraid to bring this kit with you every time you do your nails, clean them carefully before and after use - because after all, it's about protecting your health.

2. Remove calluses, exfoliate feet

How To Design A Nail Design Like That ?

Creating beautiful nail designs requires regular practice. However, for the simple nail designs for kids, you just need to paint the nails with the base color and stick interesting shapes on the nails. Here are the instructions for creating them.

- Paint your baby's nails with a base coat. It can then be painted in any color like pink, blue, green or black. You can also paint different colors on each nail. Make sure you dry the base coat properly, before applying other colors.
- Nail design takes time and patience. Choose the design you want to draw on your baby's nails. Choose a simple design. Sketch this design on paper for reference. You can also color the nail design

funnel I will draw any intricate shape on the nail easily or you can also use a nail art pen to design.

- To spice up your baby's nails, try these ideas. If she's going to a party, add glitter on her nails. Use transparent glitter polish to cover the nail design to create a party atmosphere. If you want more shine on your nails, apply a glossy top coat over the model. This top coat can help protect your baby's nail designs .

Lovely Nail Design Ideas:

1. Food pictures on nails

Paint her nails any color she likes, for example bright yellow, dark green or deep pink. Decide what kind of food you want to paint on your nails. It can be ice cream, pies, pizza, or fruit like watermelon, pineapple, banana, etc.

2. Stripe Design

Paint your child's nails dark green or any fur color. The base coat will add a jungle feel to the nail design . On the background layer, draw animals such as bears, monkeys, giraffes, etc.

Adorable kids false nails modern moms MUST KNOW

1. Things to consider when choosing to buy fake nails for kids

1.1 Quality comes first

In addition to the aesthetic value that nails bring to children, parents need to pay attention to the origin, origin and composition of nail accessories. This ensures the safety of the baby's nail health.

Adorable kids false nails modern moms MUST KNOW

1. Things to consider when choosing to buy fake nails for kids

2. Some beautiful and safe fake nails for kids

2.1 SmitCo . false nail set

Accessories include 20 baby girl artificial nails, scented nail polish and a nail file to create an even and beautiful finish. The product conquers all girls with cheerful and funny colors. In particular, the product is committed to being safe and does not contain toxins.

Adorable kids false nails modern moms MUST KNOW

1. Things to consider when choosing to buy fake nails for kids

2. Some beautiful and safe fake nails for kids

3. Frequently asked questions when buying fake nails for kids

3.1 Other designs of false nails for children

In addition to the above models, false nails on the market are extremely diverse. Includes pressed, acrylic, gel fake nails in a variety of colors, sizes, and lengths. Some popular baby fake nail designs like matte fake nails or glitter nails and 3D nails.

3.2 Are false nails easy to use

There are usually specific instructions for use in each set of children's fake nails, so parents can rest assured. Operation is very simple, including the following steps:

- Step 1: Prepare clean, washed nails, trim excess skin
- Step 2: File nails evenly for easy manipulation
- Step 3: Use a gentle stick put into the cuticle push the nail up
- Step 4: Create a rough surface on the nail for the glue to stick
- Step 5: Apply some nail glue on top of the nail
- Step 6: Glue the fake nail on the nail

3.3 How to remove fake nails at home

The best suggestion is still to go to a professional spa to remove fake nails from acrylic with nail polish. If there are no conditions, to remove the nails, you just need to soak your hands in warm water for 20 minutes to dissolve the glue. Wait for the glue to dry, gently remove the nail from the natural nail and wipe off the glue. If the glue is still left, you can use the polish to cover the cotton pad to wipe it off completely.
